

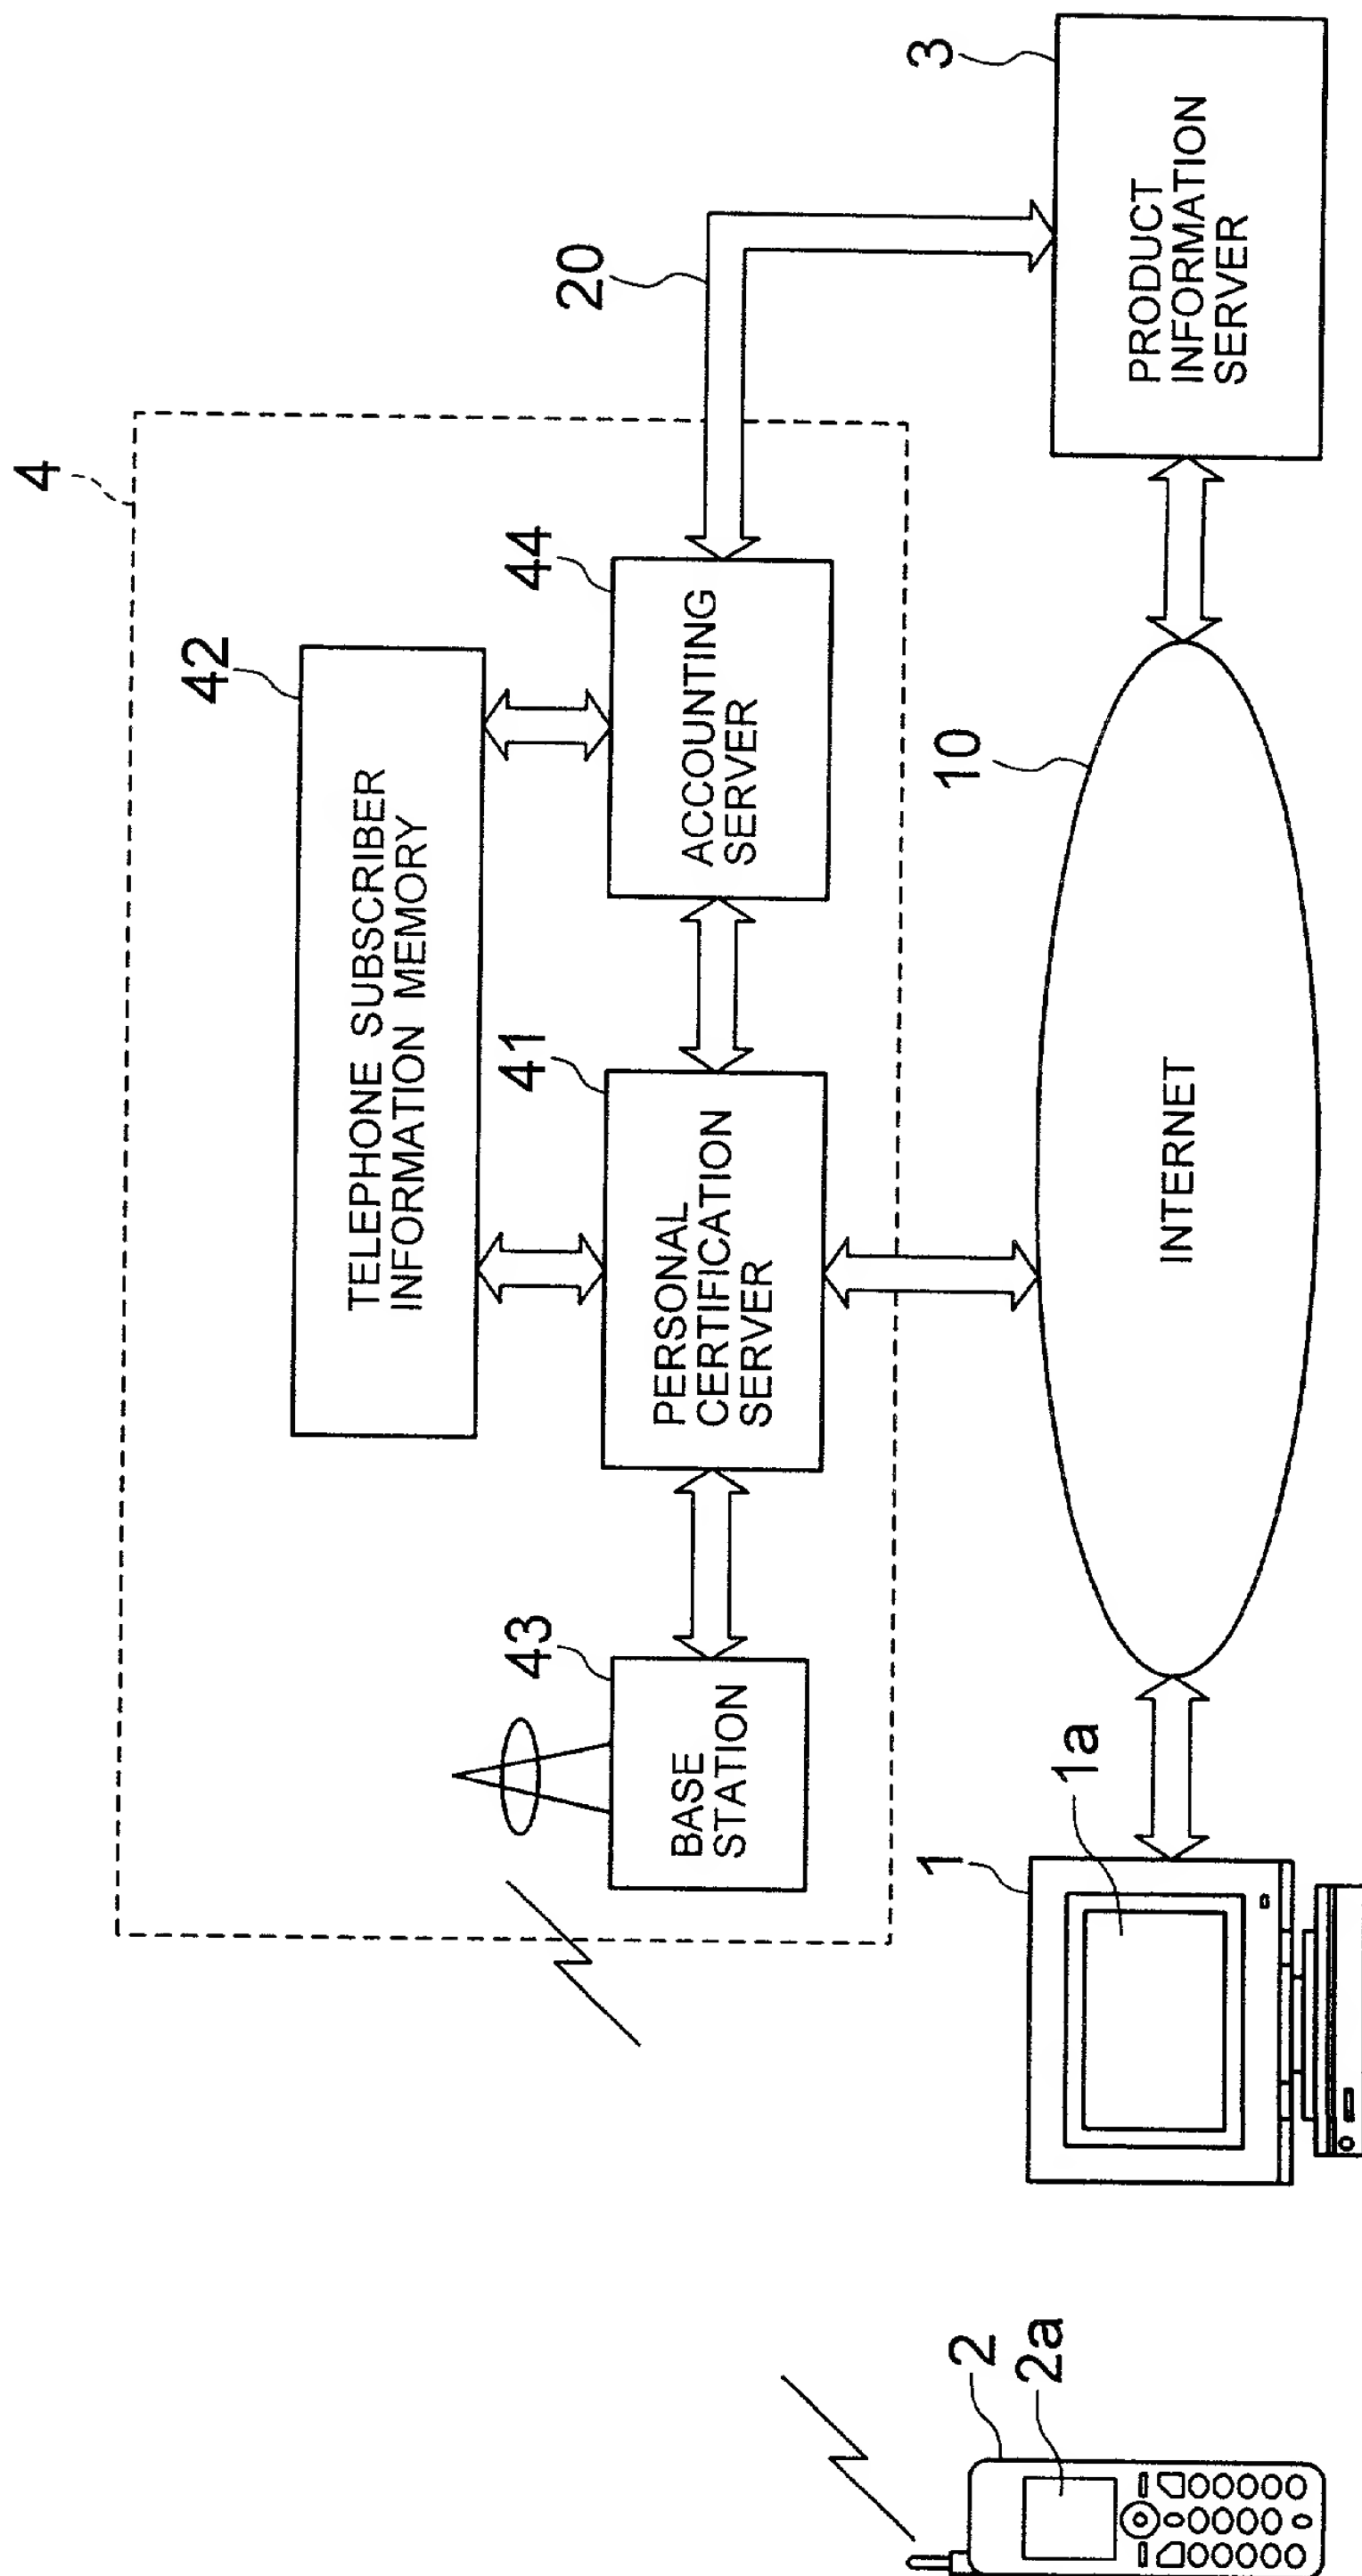

FIG. 1

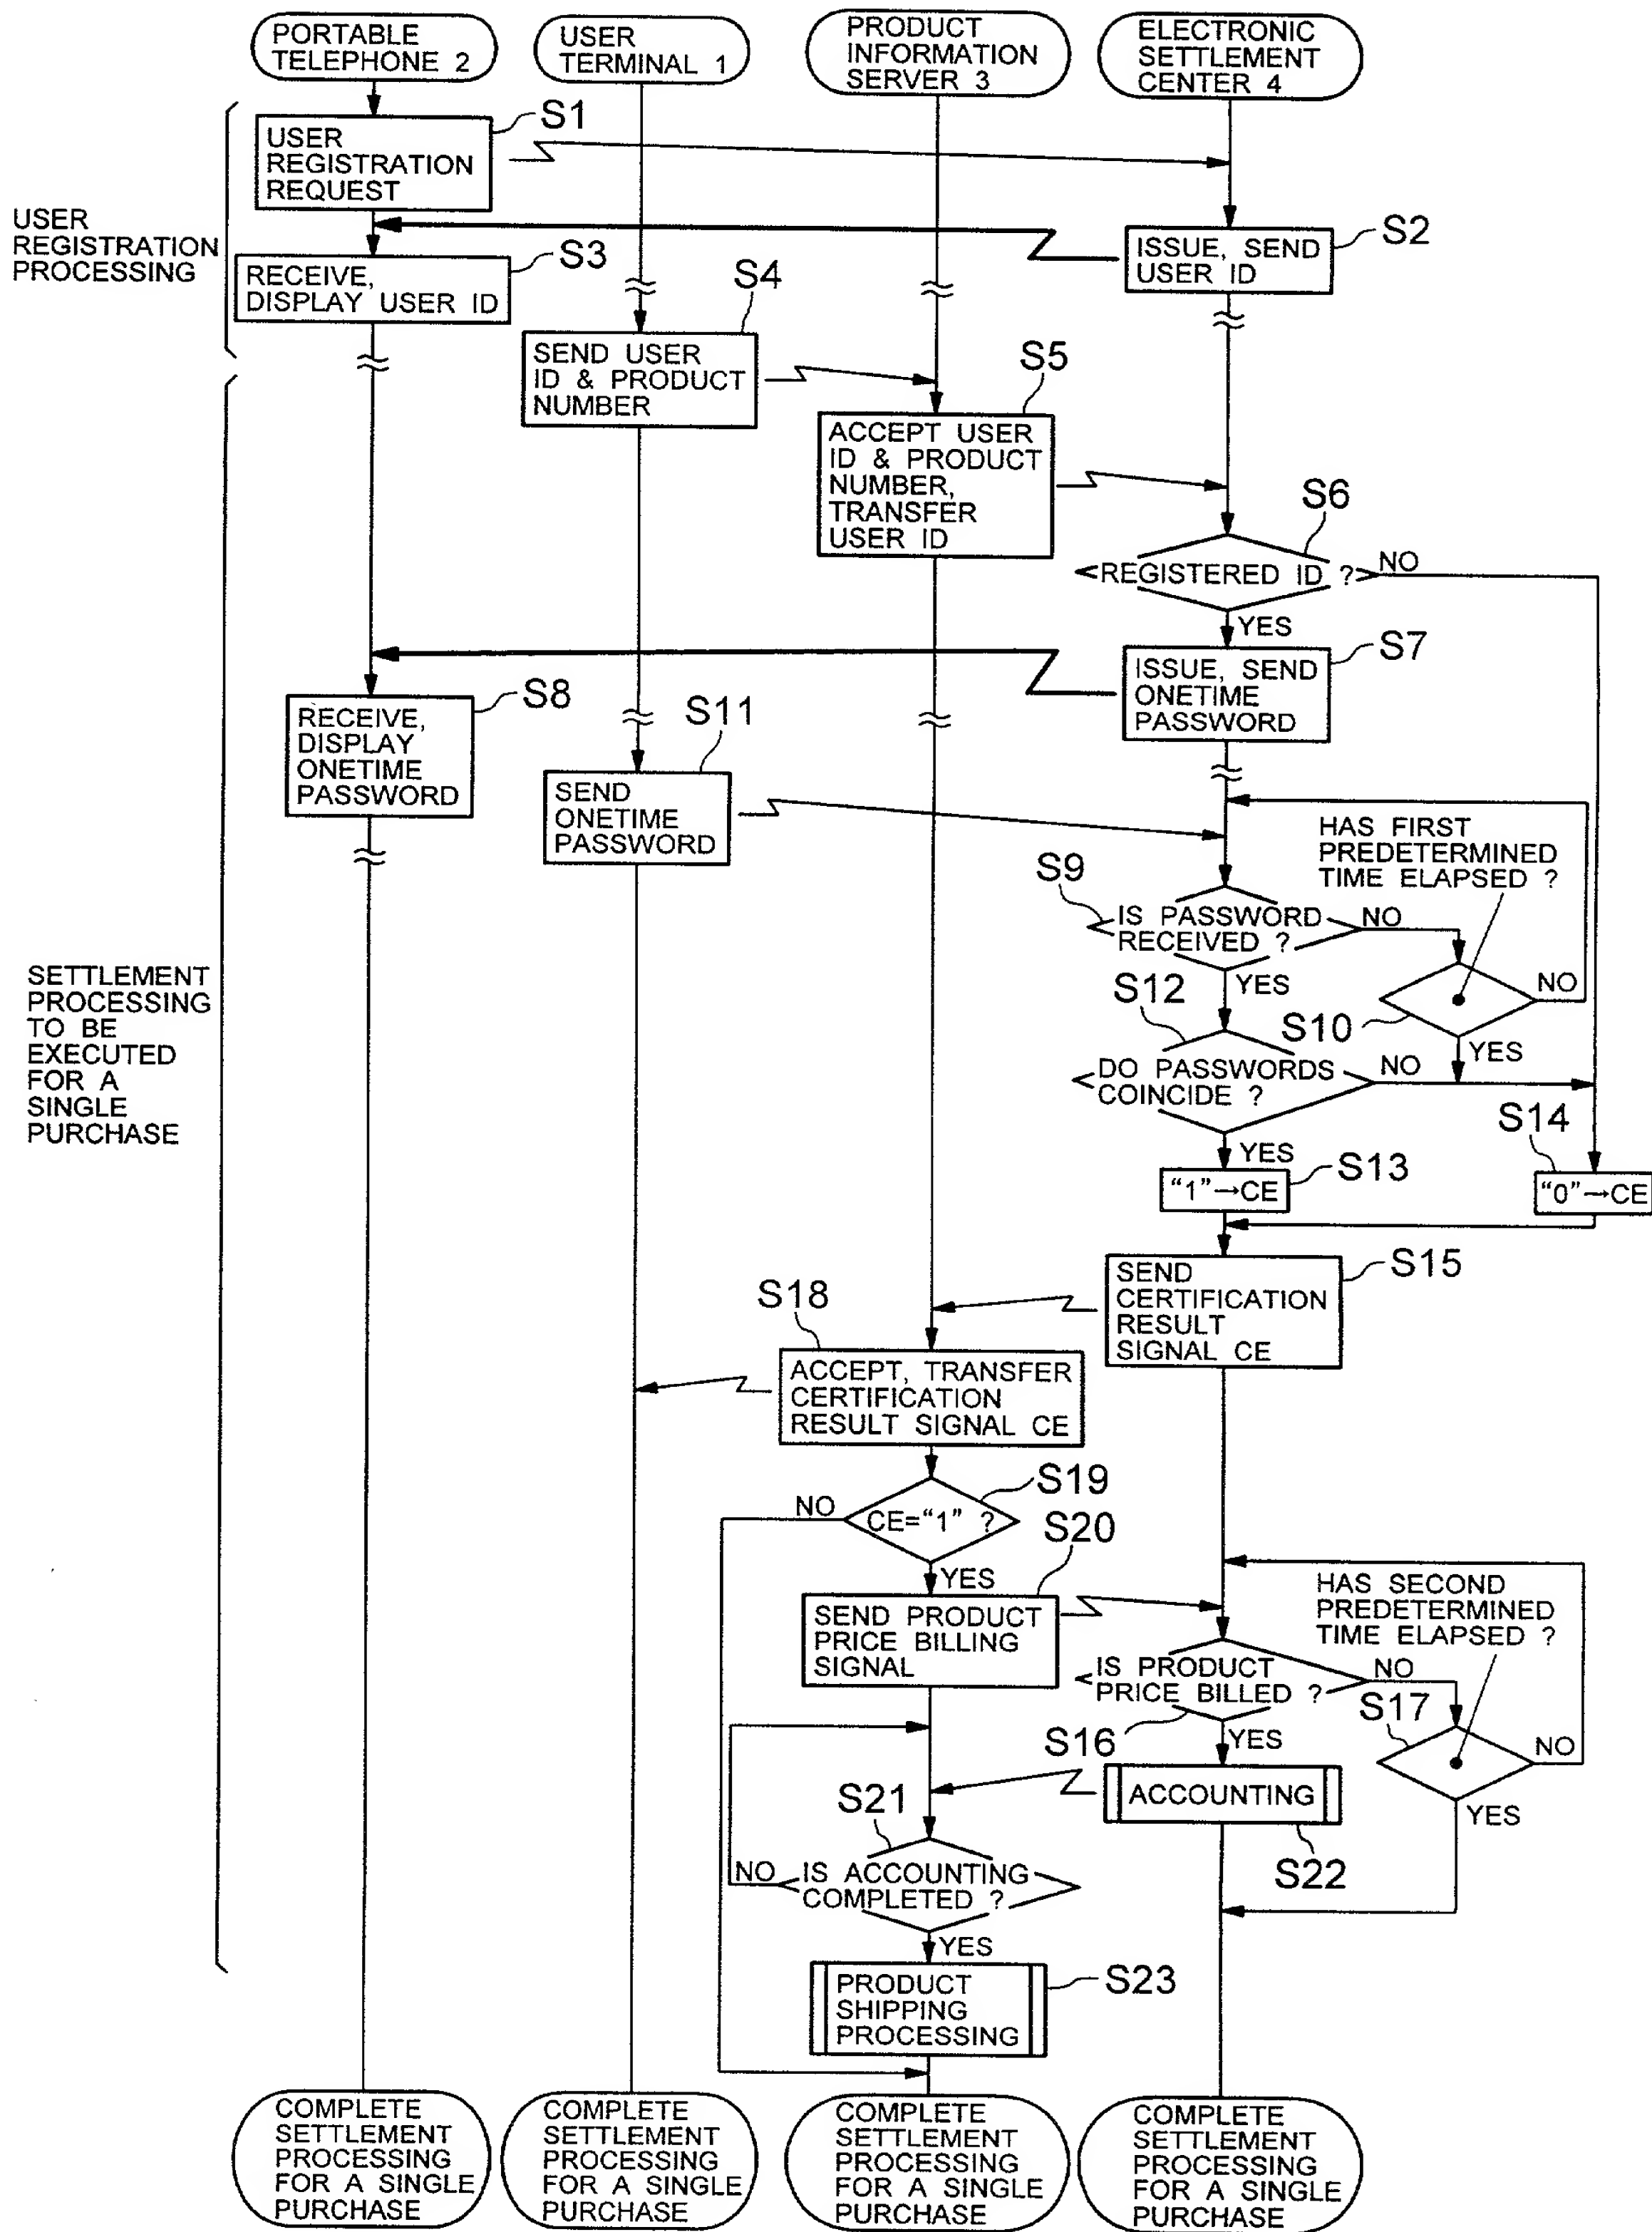

FIG. 3

FIG. 3 is a schematic diagram of a user interface form. It is enclosed in a large rectangular border. At the top, the text "USER ID" is positioned above a horizontal rectangular input field. A wavy line connects the right side of this field to the reference numeral "12". Below the first field, the text "DELIVERY ADDRESS" is positioned above another horizontal rectangular input field. A wavy line connects the right side of this field to the reference numeral "13". Further down and towards the right, there is a smaller rectangular button labeled "SEND". A wavy line connects the right side of the "SEND" button to the reference numeral "14".

FIG. 4

FIG. 4 is a schematic diagram of a user interface form, similar in style to FIG. 3. It is enclosed in a large rectangular border. The text "PASSWORD" is positioned above a horizontal rectangular input field. A wavy line connects the right side of this field to the reference numeral "15". Further down and towards the right, there is a smaller rectangular button labeled "SEND". A wavy line connects the right side of the "SEND" button to the reference numeral "16".
